

Participation in NCT05859698 Study

Thank you for contacting Neurocrine Biosciences with your unsolicited Medical Information request regarding participation in the [NCT05859698](#) Study, evaluating the effectiveness of valbenazine on patient- and clinician-reported outcomes in participants with tardive dyskinesia (TD).

Valbenazine is approved by the U.S. Food and Drug Administration (FDA) in adults for the treatment of TD.

For questions regarding clinical trial enrollment or eligibility, please refer to your healthcare provider. In addition, please refer to the table below for clinical trial site contact information.
